### GATOR BLADE OPTIONS

For maximum efficiency, select the Gator model with the same number of blades as your propeller.

Alternatively, a two blade Gator may be used on a 2, 3, 4 or 5 blade propeller.

### GATOR MODEL SELECTION

Select the Gator model that matches the propeller shaft diameter **'A'**. If there is a choice of models, choose the one with the hub diameter, **'B'**, being bigger than the propeller hub **'F'**. Correctly completing the "Boat Details" section of the order form enables us to supply you with the correct Gator model.
